INTRODUCTION

At BD Electrical & Solar, we believe in the power of clean energy to shape a sustainable future. Owned and operated by Brett Duguay, our Massachusetts-based company has been illuminating lives since 2007.

With a strong focus on promoting clean energy through solar installations and energy-efficient lighting, we serve homeowners, construction developers, apartment and shopping complexes, and businesses across Massachusetts' South Shore, including Nantucket, Martha's Vineyard, and Cape Cod.

BRETT DUGUAY: THE VISIONARY BEHIND BD ELECTRICAL & SOLAR

Brett Duguay's journey in electrical technologies began during high school at Old Colony Regional Vocational Technical, where his passion for innovation was ignited.

Six years later, as a Master Electrician, he established BD Electrical & Solar with a mission to integrate clean energy solutions into everyday life.

Since its inception, BD Electrical & Solar has completed a diverse range of projects, spanning clean energy installations, energy-efficient enhancements, and large-scale commercial ventures.

ELECTRICAL SERVICES: BUILDING RELATIONSHIPS, POWERING LIVES

For BD Electrical & Solar, every electrical job or solar installation is more than a one-time job; it is an opportunity to build lasting relationships with our customers. Our commitment to satisfaction, professionalism, and prompt responses is what sets us apart. From residential to commercial electrical services, we ensure reliable and efficient solutions, making us the leading choice for homeowners and businesses alike.

“These folks know how to do business. They completed a solar panel installation on time and on budget. Brett and the whole installation crew were top-notch; professional, respectful, and focused on making the customer happy. Post installation, the great service and support continues. We will never again have to search for a contractor for ANY electrical work. We have BD Electrical & Solar’s number, and it is the only company we will ever have to call.”

- Mitch Mac Donald

COMMERCIAL ELECTRICAL SERVICES

Shining a Light on Your Business's Success

A well-lit environment can transform the way customers perceive your business.

As experts in commercial electrical services, we understand the power of lighting to create a positive impression and highlight the unique features of your establishment.

Whether it is setting the stage for a captivating shopping experience, adding sophistication to office spaces, or ensuring safety and efficiency in industrial settings, our expertise extends to a range of commercial lighting needs.

From electrical power, light, fire alarm, and heat wiring to UV sanitation light installations, we are dedicated to making your commercial space not only well-lit but also safe, productive, and tailored to your specific requirements.

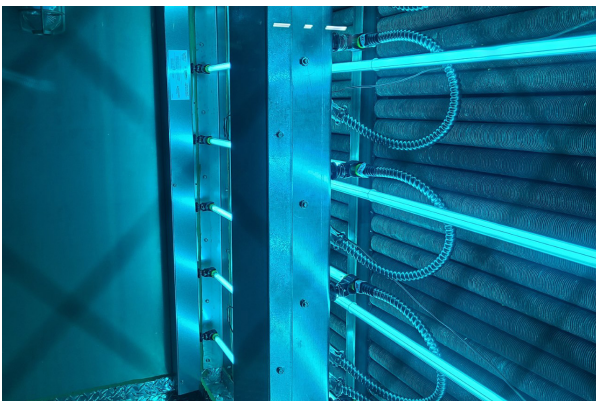

"BD Electrical & Solar installed gorgeous lighting for our basement trade ceiling that illuminates the room perfectly. They provided quality work, were efficient, polite, and knowledgeable."

- Tracy Nadolny

"Brett and his crew are professional, courteous, and responsive. Brett got my business initially because he was the only electrician to answer his phone and return phone calls and Text messages. I have hired BD for 3 separate jobs on 2 different houses now, and they were able to get the work done quickly with quality in each case. BD has become my go-to electrical contractors."

- Mike Hanrahan

Trust us to bring brilliance to every corner of your business as your premier electrician in South Shore, MA.

RESIDENTIAL ELECTRICAL SERVICES: ILLUMINATING EFFICIENCY

At BD Electrical & Solar, we believe that the best results come from a seamless blend of efficiency, reliability, and timeliness. Whether you are embarking on a new construction project or seeking regular maintenance, our fast and efficient service ensures that your electrical needs are always met promptly. With us by your side, you will have a trusted partner you can rely on for all your electrical requirements.

Remodels: Preserving the Beauty of Your Home

Your home evolves with time, and so should its electrical system. Whether you are undertaking a complete remodel or a partial upgrade for your vacation home on the South Shore, our electrical solutions will transform your house into a personalized haven.

From modernizing lighting fixtures and smart home automation to ensuring optimal energy efficiency, our team is dedicated to breathing new life into your home.

New Construction: Bringing Your Vision to Life

Building a new home is an exciting journey, and we are here to walk that path with you. Our team collaborates closely with you and your architects to understand your unique preferences and requirements.

From designing and installing custom lighting fixtures that add a touch of magic to your new Nantucket home, to integrating the latest energy-efficient solutions, we ensure that your dream living spaces are thoughtfully crafted to suit your lifestyle.

Our commitment does not end with installation; we are your reliable partners for ongoing electrical maintenance. With fast and efficient service, we ensure your electrical needs are met promptly, and your home remains safe and powered with excellence.

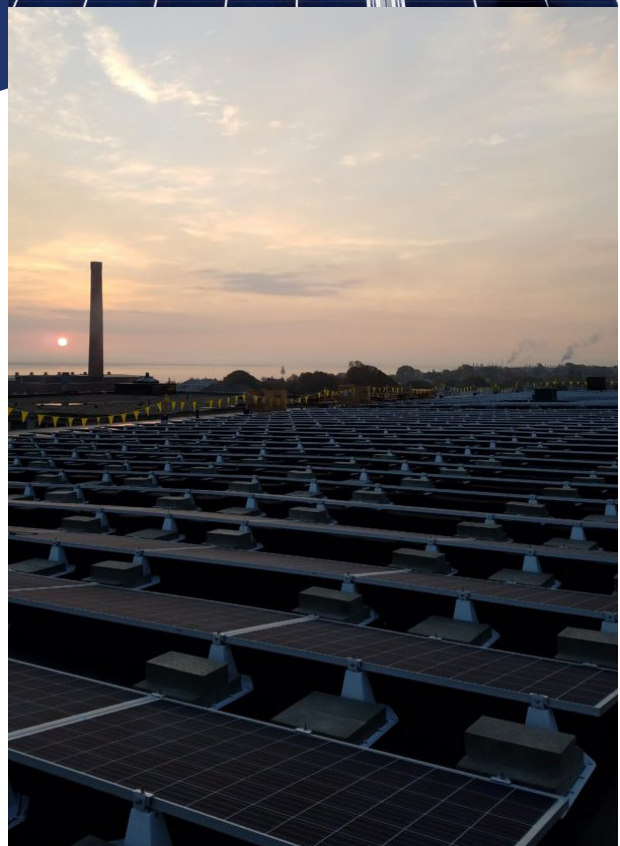

COMMERCIAL SOLAR: BRIGHTENING BUSINESSES' FUTURES

As a Massachusetts-based company ourselves, we take immense pride in contributing to the state's drive towards a greener future. With our commercial solar services, businesses can actively participate in building a cleaner, more sustainable community, championing eco-friendly practices while ensuring the growth and prosperity of their enterprises.

Businesses on the South Shore, Cape Cod, and Nantucket also reap the benefits of our solar efficiency expertise. Our commercial solar installations not only help businesses cut down on operational costs but also enable them to demonstrate their commitment to green initiatives and sustainable practices.

From offices and retail storefronts to bustling commercial complexes, our solar solutions contribute to a greener, cleaner, and more responsible future.

RESIDENTIAL SOLAR: EMPOWERING HOMES WITH ECO-FRIENDLY ENERGY SOLUTIONS

As a leading solar installation company in Cape Cod, our commitment to preserving the Massachusetts shoreline and surrounding islands drives our passion for clean and eco-friendly energy solutions. We understand that venturing into solar panel installation can feel overwhelming, with factors like upfront costs and the challenge of selecting the perfect contractor from a vast array of options. Rest assured, we are here to simplify the process and guide you every step of the way.

At BD Electrical & Solar, we make the process seamless and stress-free, handling everything from obtaining permits to coordinating federal and state incentives, ensuring you maximize your savings and experience an instant payoff on your investment. With us, your journey to harnessing the power of the sun is in trusted hands, and the future of sustainable energy awaits you.

“BD Electrical Services recently installed a solar panel system for our home. They did planning and installation, permits, inspections, coordination with Eversource, and federal and state incentive documentation. The system is now working very well, providing sufficient electricity for our home. We highly recommend this company.”

-Melvin Shroeder

THE PROCESS:

Talk with you about your need for solar panels and obtain a current utility bill

Use HD satellite imagery and 3D software to create a preliminary report

Schedule a site visit to conduct an in-person audit of your property

Create a service contract and price for the project

Design and engineer construction drawings and structural stamp

Apply for building & electrical permits for the project

Schedule installation and install the solar panels

Inspect the finalized project and file documents with local utilities

Coordinate with local utility to install NET meter and SMART meter

Turn on the system, explain the metering app, and answer questions

ADDITIONAL SERVICES

Beyond solar panel installations, we offer futuristic solutions to further enhance clean energy adoption. From Electric Vehicle (EV) charging stations to generators for backup power, and solar storage systems to store excess energy, we pave the way for a sustainable, self-sufficient future.

Whether you are a homeowner seeking convenient EV charging at your residence or a business looking to provide charging services for customers and employees, our innovative solutions deliver efficiency, convenience, and a positive environmental impact.

As winter rolls around or summer storms unleash their fury on the Massachusetts islands, ensuring a reliable and uninterrupted energy supply becomes crucial. At BD Electrical & Solar, we offer comprehensive backup power solutions, including backup battery systems for solar panels and backup generators, to keep your home or business powered through any adverse weather conditions.
